

REIA Webinar

Creating Positive Energy and Economic Opportunity by Investing in Underserved Neighborhoods

Thursday, July 23, 2020

Program 8:30 – 10:00 a.m.

It takes real action and innovation to support the current energy to expand equality, fight racism and create opportunity in lower income neighborhoods. These areas have long suffered from lack of investment, unequal education, underfunded medical facilities, unhealthy food and lack of good jobs.

Our panelists and their companies are making a difference in Chicago bringing investment and opportunity to Englewood, Lawndale, Roseland and other underserved neighborhoods. Come listen as they share insights and discuss investment developments. Q & A will follow the presentation.

Moderator:

Neil Freeman, CEO, Aries Capital LLC & Urban Development Fund

Panel: **Leon Walker**, Principal, DL3 Investments & DL3 Realty

Jeff Head, Vice President, The Habitat Company

Tony Smith, Senior VP - Community Development, PNC Bank
